8. Agency form number(s) (<i>If applicable</i>) : EPA No. 0270.40	
9. Keywords: Public Water Systems, National Primary Drinking Water Regulations, Safe Drinking Water Act	
10. Abstract: The Office of Ground Water Drinking Water has restructured its ICRs to consolidate like rules and activities. The 2001 PWSS Program ICR is the result of a consolidation of some activities covered in the 1993 PWSS ICR and activities and rules previously covered in other OGWDW standalone ICRs. The 2001 PWSS Program ICR will include: General State and Indian Primacy activities, Variance & Exemptions Rule, Primacy Regulation Activities (Administrative Penalty Authority), Capacity Development Program, Operator Certification Guidelines and Expense Reimbursement Grants Program, and Consumer Confidence Reports. Rules and activities previously covered in the 1993 PWSS Program ICR, and not addressed in this one, have administratively moved to other OGWDW ICRs as appropriate. This ICR contains record keeping and reporting requirements that are mandatory for compliance with 40 CFR Parts 141 and 142. Implementation of monitoring requirements is principally a responsibility of the States, particularly those States that have assumed primary enforcement responsibility (primacy) for public water systems under SDWA Section 1413. EPA has chosen to require the least frequent collection that remains consistent with overall public health preservation objectives. Data collected allow States to identify in a timely fashion significant contaminant concentrations which might threaten the health and safety of drinking water consumers. The information collected in this ICR is used to aid in understanding the quality of drinking water, make regulatory enforcement decisions, oversee State programs, and make decisions regarding EPA grants. Primary users of the data collected under this ICR are OGWDW, OECA, PWS managers and primacy agencies, which include State regulators, Indian Tribes and occasionally Regional Administrators.
